PROFESSIONAL SUMMARY

AI Engineer with experience in Python, FastAPI, PostgreSQL, LLMs, RAG, and Machine Learning. Skilled in Data Science, SQL, Scikit-learn, and AI application development.

EDUCATION

Graphic Era Hill University

Bachelor of Technology (B.Tech) in Computer Science and Engineering – CGPA: 6.88/10

Haldwani, Uttarakhand

July 2022 – June 2025

TECHNICAL SKILLS

Languages: Python, C++, SQL, JavaScript, HTML5, CSS3

Languages: Python, SQL, C++, JavaScript, HTML, CSS

AI/ML: Scikit-learn, Pandas, NumPy, FastAPI, LLMs, RAG, Gemini API, NLP, EDA, Feature Engineering

Database & Tools: PostgreSQL, MySQL, SQLAlchemy, Git, Docker, GitLab, Power BI, VS code

PROFESSIONAL EXPERIENCE

Trainee Engineer – Data Science & AI/ML

Jul 2026 – Present

Silicon Interfaces Pvt. Ltd.

Mumbai, India

- Working on Data Science and Machine Learning solutions using Python, SQL, Pandas, NumPy, and Scikit-learn for data preprocessing, exploratory data analysis (EDA), and model development.
- Performing data cleaning, feature engineering, model evaluation, and SQL-based data analysis while gaining hands-on experience in real-world AI/ML workflows.

AI Engineer Intern

Jan 2026 – May 2026

Northcorp Software

Remote- Freelance

- Developed AI-powered REST APIs using FastAPI, PostgreSQL, and SQLAlchemy for resume generation, skill gap analysis, and cover letter automation.
- Built LLM-based features using Google Gemini API and RAG pipelines while contributing to Docker-based deployment and GitLab development workflows.

PROJECTS

House Price Prediction | Python, Scikit-learn, EDA, Linear Regression

GitHub

- Built Linear Regression model using Scikit-learn to predict house prices with full EDA pipeline — missing value handling, outlier removal (IQR method), and feature scaling.
- Evaluated model performance using MSE and R^2 score; applied train-test split and bias-variance tradeoff analysis to improve prediction accuracy.

AI-Powered Employee Attrition Prediction System | Python, XGBoost, FastAPI, React

GitHub

- Built an **end-to-end** AI-powered employee attrition prediction system using XGBoost, achieving **91% F1-score** and **83% test accuracy**.
- Developed the complete ML pipeline from data preprocessing to FastAPI deployment with a React dashboard for real-time HR analytics.

ACHIEVEMENTS & CERTIFICATIONS

- Cleared **TCS National Qualifier Test (NQT) 2025** – shortlisted for Ninja role interview among top 10% candidates nationwide
- Completed **Advanced Certification in Data Science (ML)** – Seed Infotech (2026)
- Python Development Internship Certificate** – Cognifyz Technologies (2024)
- Represented state at **National Basketball Championship**, demonstrating teamwork, leadership, and performance under pressure
